

Google Cloud Print will no longer be supported after 12/31/2020. To ensure your 34998 or AC1234-9 machine retains wireless printing, we have opted to use Mopria Print Service on your machine

A December 2020 software update included the Mopria app, enabling wireless printing to millions of printers in North America from most major printer manufacturers.

### **To update your machine:**

- Ensure you are connected to the Internet
- Your machine will automatically begin downloading the latest software updates when available
- From the home screen, select Settings
- From the Settings screen, select Software Information
- Tap the button indicating there is an update available
- Follow the on-screen prompts to install your software

Keep your machine plugged in and connected to WiFi during installation. The machine may restart one or more times to finish software installation.

### **What's in my update?**

- Mopria Print Service, a new wireless printing app designed to make printing from Android devices easier and faster.

### **Why is Google Cloud Print no longer supported?**

- Google announced it was ending support for Google Cloud Print as of 12/31/2020. To continue using wireless printing, we have opted to use Mopria Print Service.

### **What printers will Mopria work with?**

- Mopria Print Service works with most major printer manufacturers. The app is a collaboration from Brother, Canon, DEVELOP, Epson, Fuji Xerox, Gestetner, HP, Infotec, Konica Minolta, Kyocera, Lanier, Lenovo, Lexmark, NEC, NRG, Pantum, RICOH, Samsung, Savin, Sharp, TA Triumph Adler-UTAX, Toshiba and Xerox
