Fully automatic, unmatched 98.5% recovery

The new Robinair 34988NI Premium A/C Machine combines ease of use and superior accuracy. It recovers, recycles, evacuates, leak tests & recharges R-134a vehicle systems quickly and accurately.

- Fully automatic recovery, vacuum leak test and recharge - no monitoring required
- Patented automatic refrigerant refill prevents machine from emptying supply tank
- Only machine with fully automatic oil injection
- Two oil inject bottles for different oils to work on more vehicles with less down time
- Large easy-to-read color display and printer standard
- UV dye injection capability for leak detection
- Automatic air purge eliminates system-damaging air

Robinair A/C service tools and equipment are sold through distribution partners, resellers and retailers. Visit robinair.com to find a partner near you.
Industry-leading efficiency and more accurate service

**Features**

- Fully automatic operation frees technician to perform other tasks while servicing the vehicle’s A/C system
- Automatic oil drain and inject feature enables the machine to measure amount of oil removed from the vehicle and automatically put the same amount back in, frees the user from measuring the amount of oil removed
- Multiple oil bottles gives the machine the flexibility to store and inject two different types of oil saving the user time when servicing multiple vehicles
- Large, easy-to-read graphical display
- Standard onboard printer gives the user the ability to print service data to present to a customer after service
- Unique Automatic Refrigerant Refill maintains a user-selectable amount of refrigerant in an internal vessel and signals when it’s time to change supply tank, no monitoring required
- Programmable vacuum feature defaults to 15 mins, but allows the user to select desired vacuum time up to 99 minutes
- Automatic Air Purge eliminates system-damaging air without monitoring gauges or opening valves
- Save before and after service data allows the user to store before and after service information by vehicle
- Visual and audible alarm notifies the user when service is complete, or if a problem has occurred
- Automatic Dye Inject gives the user the ability to use the machine to inject UV dye into a vehicle’s A/C system
- Optional refrigerant and oil database includes A/C charge and oil capacities for North American market vehicles

**Maintenance and Accessories**

Get filters before the beginning of the season for preventative maintenance

- Keep recovery and recycling units operating at peak efficiency with a convenient maintenance kit.
- Contains one quick change filter-drier to be used on both R-12 and R-134a stations, and one 16 ounce bottle of our Premium High Vacuum Pump Oil.

**A/C Fluorescent Dye**

- Meets the new standard for use with both R134A & R1234YF

**Protect your investment**

- Heavy-duty vinyl cover.
- Features corded seams for durability.
